Man made machines

Affidabili, robuste, fatte a mano in Italia. Pavoni Italia presenta la sua gamma di macchine dedicate alla pasticceria e alla ristorazione. Un'offerta pensata per i professionisti e concepita in collaborazione con i professionisti: macchine uniche perché progettate e sviluppate a partire dai loro consigli, assemblate con cura artigianale, capaci di ottime prestazioni. E pensate per durare, grazie anche a un servizio post vendita eccezionale, sempre garantito dalla qualità Pavoni Italia.

Reliable, durable, handmade in Italy. Pavoni Italia presents its range of machines for the pastry and catering sector. Our range is designed for and conceived in collaboration with professionals. Our machines are unique because they are designed and developed using their advice, are assembled with artisan care and capable of excellent performance. They are also designed to last thanks to an exceptional after-sales service guaranteed by the quality Pavoni Italia is known for.

Ci sono cuori che battono dietro le macchine

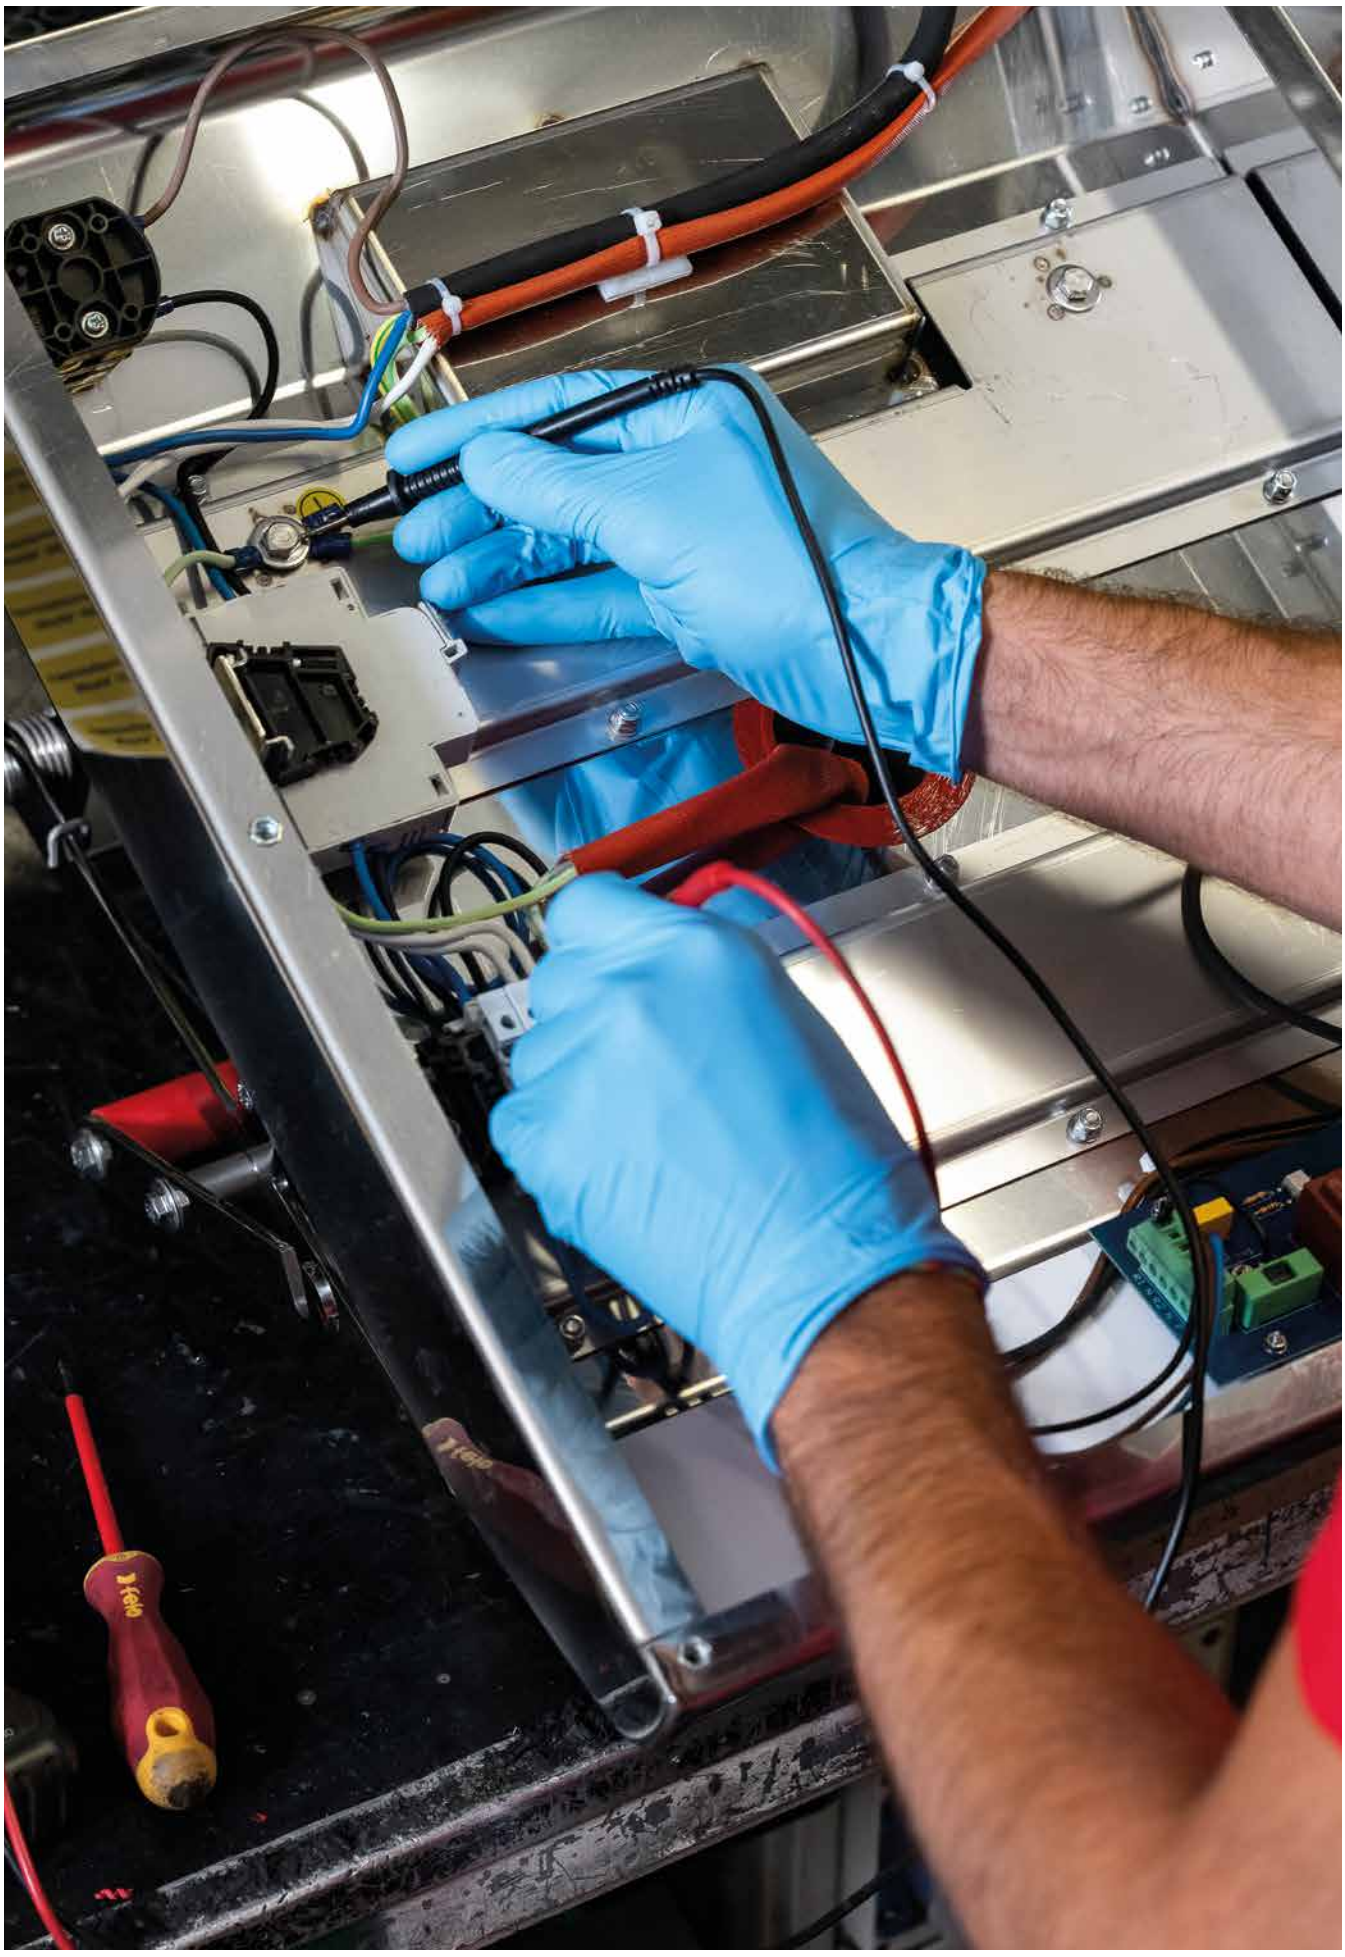

Lui è Emilio e guida il team di produzione macchine Pavoni Italia. Insieme conoscono ogni singola parte delle macchine; una squadra compatta che con il team Ricerca e Sviluppo ne disegna e coordina la realizzazione. Con alle spalle oltre 30 anni di esperienza, l'entusiasmo è lo stesso dei primi giorni: attenzione massima alla robustezza, ricerca di componenti di qualità, idee sempre votate al miglioramento dei flussi di lavoro e un pallino per il perfezionamento continuo della produzione. Produzione su cui tutta la squadra mette le mani, ogni singolo giorno.

The hearts behind the machines

This is Emilio. He leads the Pavoni Italia machine production team. They know every single part that goes into the machines. They are a compact team that, working hand in hand with the Research and Development team, designs and coordinates their production. With more than 30 years of experience behind them, the enthusiasm is the same as it was in the early days – maximum attention to durability, a relentless pursuit for quality components, ideas dedicated to improving workflows and a dedication to the continuous improvement of production. And production is something into which the whole team puts its hands, every single day.

pavoni

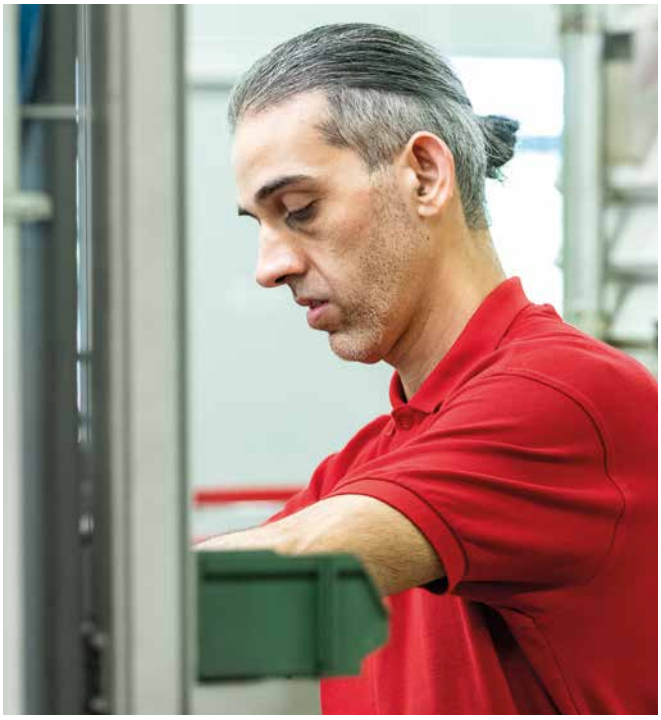

Prodotte con passione, seguite con cura

Il segreto della macchine Pavoni Italia è nelle persone. Ogni prodotto nasce ascoltando le necessità dei professionisti della pasticceria e della ristorazione, comprendendone le modalità di lavoro e i desideri. Qui nasce l'idea, che viene poi messa in pratica.
La progettazione avviene in dettaglio negli uffici di ricerca e sviluppo e poi si avvia verso la produzione, curata componente per componente da mani esperte, alla ricerca della massima affidabilità. Con un'attenzione speciale al servizio post-vendita: la mano artigianale trova in questo campo il suo migliore terreno, revisionando in poche ore macchine pensate per durare nel tempo e poi rispedite prontamente ai clienti. Compagne di lavoro di tutti i giorni, sicure e sempre al tuo fianco.

Produced with passion, followed with care

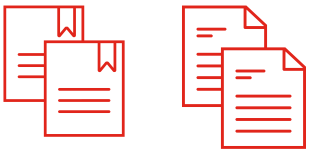

The secret of Pavoni Italia machines is its people. Each product is created by listening to the needs of pastry and catering professionals and understanding their working methods and needs. Here the idea is born, which is then put into practice.
The design is carried out in detail in the research and development offices and then goes on to production, where each machine is constructed component by component by expert hands with the ultimate goal being maximum reliability. Not to mention the special attention that is received in the after-sales service. This is where trained artisan hands work their magic, overhauling machines designed to last over time in just a few hours before being promptly returned to the customers. Everyday working tools – safe and always with you when you need them.

La garanzia della vostra soddisfazione

Le macchine Pavoni Italia vengono realizzate per un utilizzo facile e pratico, studiate negli ingombri e nel design al fine di velocizzare e migliorare il lavoro dei professionisti. Per fare ciò, la progettazione e realizzazione avviene ottemperando alle normative vigenti. Ogni singola macchina è sottoposta a rigorosi collaudi imposti dagli standard qualitativi interni di fabbricazione, ispirati alla norma UNI EN ISO 9001.

Progettate e realizzate nel rispetto delle normative:

- EN 60204-1 (sicurezza delle macchine - sicurezza elettrica)
- EN 12852 (sicurezza e igiene delle macchine per l'industria alimentare)

La dichiarazione di conformità, fornita in allegato alla macchina, attesta che la marcatura CE è stata applicata con riferimento a:

- Direttiva 2004/108/CE del 15/12/2004
- Direttiva 2006/95/CE del 12/12/2006
- Direttiva 2006/42/CE del Parlamento Europeo e del Consiglio del 17-05-2006
- Reg.CE 1935/2004 idoneità dei materiali al contatto diretto con alimenti
- Reg.CE 2023/2006 buone pratiche di fabbricazione (GMP)

Le macchine sono conformi al sistema di certificazione GOST R.

Your satisfaction, guaranteed

Pavoni Italia machines are made with a focus on ease and practical use. They have been engineered down to the finest details and designed to speed up and improve the work of professionals. To do this, the design and construction are carried out in compliance with current regulations. Every single machine is subjected to rigorous tests imposed by the internal manufacturing quality standards based on the UNI EN ISO 9001 certification.

Designed and manufactured in compliance with the following regulations:

- EN 60204-1 (machine safety - electrical safety)
- EN 12852 (safety and hygiene of machinery for the food industry)

The declaration of conformity, which is attached to the machine, certifies that the CE marking has been applied with regard to:

- 2004/108/CE directive dated 15/12/2004
- 2006/95/CE directive dated 12/12/2006
- 2006/42/CE directive by the European Parliament and Council dated 17-05-2006
- CE 1935/2004 Reg. materials suitable for direct contact with foodstuffs
- CE 2023/2006 Reg. good manufacturing practices (GMP)

The machines comply with the GOST R certification system.

pavoni

Cookmatic

New Cookmatic

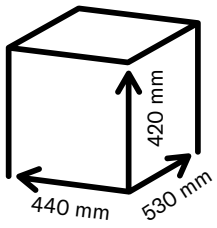

Dai nuova forma alla perfezione.

Cookmatic è la soluzione ideale per la creazione e la cottura di tartellette dolci e salate, nonché per la produzione di choux geometrici. Con una sola macchina, è possibile formare e cuocere prodotti a base di pasta frolla, brisée e pâte à choux in tempi rapidissimi, riducendo notevolmente i tempi di lavorazione e la necessità di un operatore dedicato, rispetto ai metodi tradizionali in laboratorio.
Il sistema intuitivo di Cookmatic consente di realizzare una varietà di forme e misure in tempi brevi, grazie alle piastre intercambiabili. L'accoppiamento delle piastre permette di ottenere prodotti perfetti, sia in dimensioni che in cottura. La nuova interfaccia è progettata per una programmazione ancora più semplice e veloce. Facile da pulire, Cookmatic è adatta alla produzione continua per molte ore.
Garanzia 2 anni.

Give perfection a new shape.

Cookmatic is the ideal solution for creating and baking both sweet and savory tartlets, as well as for producing geometric choux. With a single machine, you can shape and bake products made from shortcrust pastry, puff pastry, and pâte à choux in just a few minutes, significantly reducing production time and the need for a dedicated operator compared to traditional laboratory methods.
Cookmatic's intuitive system allows you to create a variety of shapes and sizes in a short amount of time, thanks to its interchangeable plates. By combining the plates, you can achieve perfectly sized and baked products. The new interface is designed for even simpler and faster using. Easy to clean, Cookmatic is suitable for continuous production for several hours.
2 years warranty.

Piastre per tartellette Cookmatic

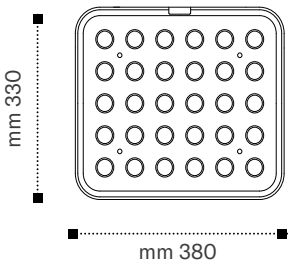

Utilizzabili anche su Cookmatic
Special - pag. 28

La tua libertà creativa è garantita da un'ampia selezione di forme realizzabili. Cookmatic monta due piastre di cottura: una superiore e una inferiore. Scegli tra le coppie di piastre disponibili - realizzate in materiale antiaderente - a seconda del tipo di tartelletta che desideri e cambiale in libertà con pochi semplici gesti.

Tartlet plates for Cookmatic

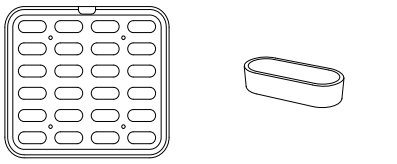

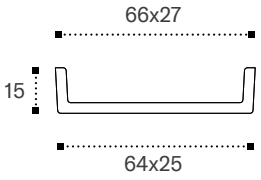

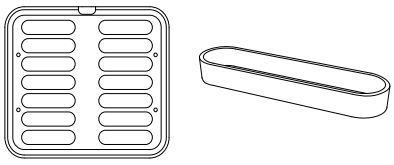

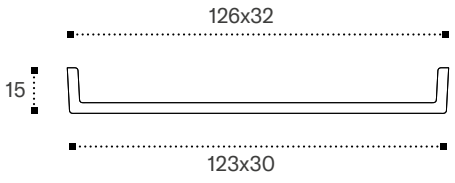

Also usable with Cookmatic
Special - pag. 28

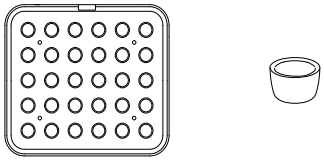

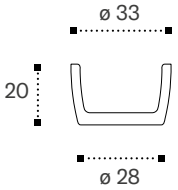

A wide range of shapes ensures your creative freedom. Cookmatic comes with two cooking plates: an upper and a lower, both made of non-stick material. Choose from the available plate pairs for the type of tartlet you want. You can easily swap them out at any time with just a few simple steps.

Piastre pâte à choux per Cookmatic

Quattro diverse piastre per la realizzazione di pâte à choux di forma sempre perfetta: cubo, cilindro, éclair tonda e rettangolare.

I dettagli realizzativi permettono la creazione di preparazioni cave pronte da farcire e decorare, un accoppiamento sulla macchina sempre ideale e la massima efficienza di resa.

Il dettaglio che cambia tutto: la scanalatura

Scanalature in rilievo su tutto il perimetro delle forme consentono la fuoriuscita del vapore, in modo regolare. L'impasto si espande così durante la cottura, diventando cavo, pronto per essere farcito.

Una cottura perfetta

Grazie alla programmazione di Cookmatic, al mantenimento ideale della temperatura e ai dettagli del design delle piastre, la cottura delle pâte à choux risulta sempre perfetta. A fine processo otterrai una cavità ideale per essere farcita.

Pâte à choux plates for Cookmatic

Four different plates for the realization of always perfect pâte à choux: cube, cylinder, round éclair and rectangular éclair.

The manufacturing details allow the creation of hollow preparations ready to be stuffed and decorated, a coupling on-the machine always ideal and maximum efficiency of performance.

The detail that changes everything: the groove

Grooves in relief on the entire perimeter of the shapes allow the vapor to escape, in a regular way. The dough expands during cooking, becoming hollow, ready to be filled.

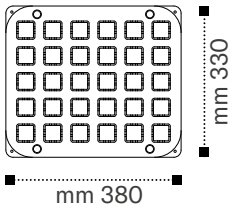

Perfect baking

Thanks to the Cookmatic programming, the ideal temperature maintenance and the details of the plate design, the cooking of the pâte à choux is always perfect. At the end of the process you will get an ideal cavity to be filled.

Raccomandazioni d’uso

Dosaggio con sac à poche in piastra

1
Preriscalda le piastre.

2
Per un utilizzo immediato e risultati da esporre subito in vetrina, puoi dressare l’impasto direttamente nelle piastre, utilizzando una sac à poche (cod. ELITEPRO). Per ottenere un risultato ottimale, consigliamo di riempire solo circa 3/4 delle impronte della piastra.

3
Cuoci con Cookmatic.

4
Estrai gli choux dalle piastre e falli raffreddare su griglia (cod. GLA64).

5
Farcisci, decora a piacimento ed esponi direttamente in vetrina.
In alternativa, congela gli choux vuoti o farciti; conservali con Covering (cod. COVER55, COVER85, TRAY); rigenera, farcisci e decora.

Recommendations for use

Dosing with sac à poche in plate

1
Preheat the plates.

2
For immediate use and results to be displayed in the shop window, you can dress the dough directly in the plates, using a disposable piping bag (cod. ELITEPRO). For a better result, we recommend to fill the indents of the plate approximately to 3/4 of the way full.

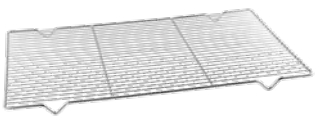

3
Cook with Cookmatic.

4
Remove the choux from the plates and let them cool on grid (cod. GLA64).

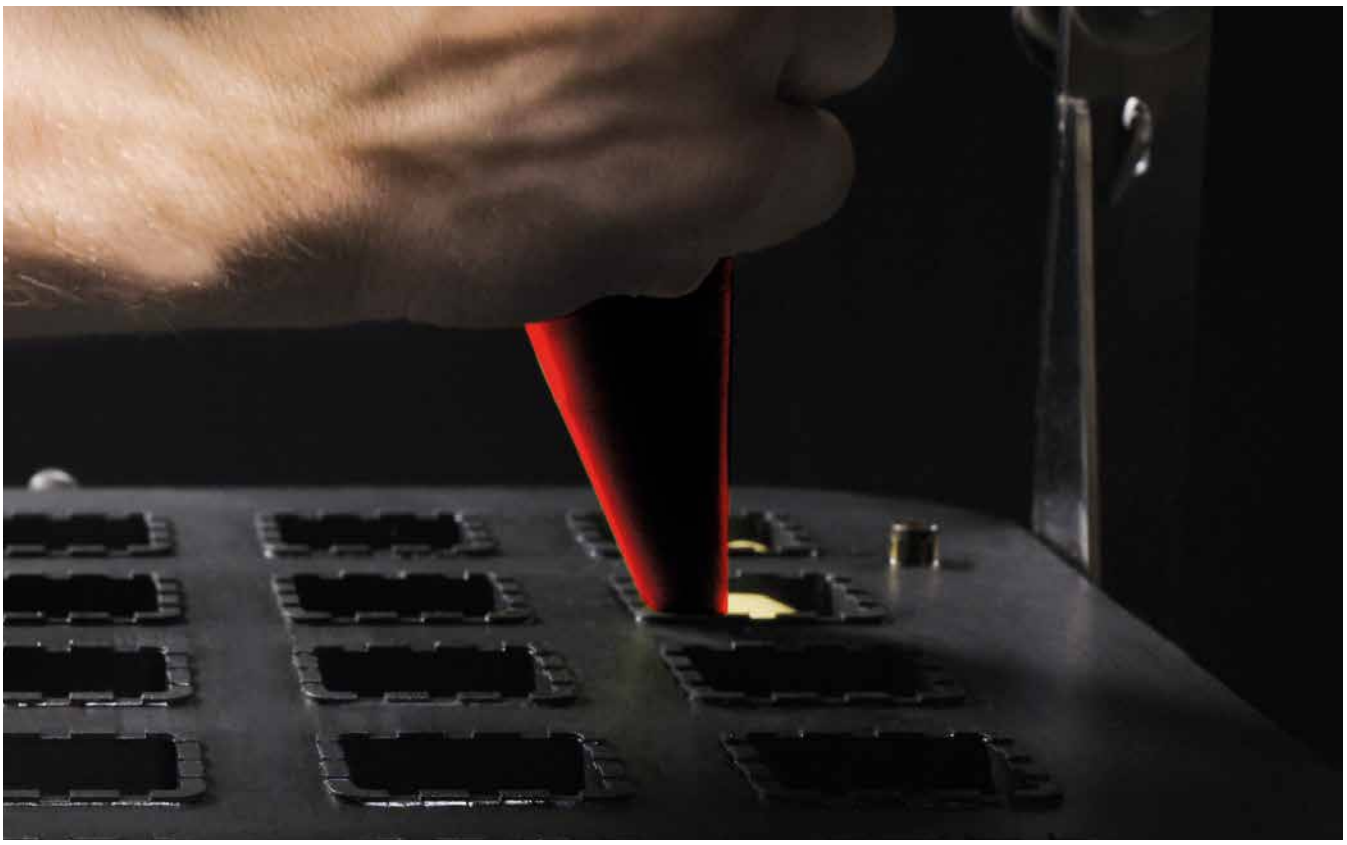

5
Stuff, decorate to taste and expose directly in the shop window.
Alternatively, freeze empty or filled choux; preserve them with Covering (cod. COVER55, COVER85, TRAY); regenerates, fills and decorates.

New Cookmatic Special

Per tartellette con altezze da record!

Con Cookmatic Special puoi realizzare tartellette alte 45 mm, grazie allo speciale meccanismo di scorrimento regolabile in altezza brevettato da Pavoni Italia. Scegli tra le differenti coppie di piastre disponibili e realizza basi di varie forme per tartellette, pastafrolla dolce o salata e pasta brisée: grazie all'accoppiamento perfetto delle due piastre otterrai tartellette sempre perfette per dimensione e cottura. Cookmatic Special è facile da pulire ed è adatta alla produzione in continuo per diverse ore.
2 anni di garanzia.

New Cookmatic Special

For tartlets with record heights!

With Cookmatic Special you can create 45mm-high tartlets, thanks to the special height-adjustable sliding mechanism patented by Pavoni Italia. Choose from the different pairs of plates available and make bases of various shapes for tartlets and sweet and savoury pastries. The perfect coupling of the two plates will always give you perfectly-sized tartlets ready for cooking. Cookmatic Special is easy to clean and suitable for continuous production over several hours.
2 years warranty.

Cookmatic Maxi

Maxi formato, maxi resa.

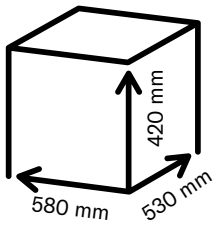

Con Cookmatic Maxi puoi realizzare fino al 50% in più di tartellette nello stesso tempo, grazie alla piastre di dimensioni maggiorate. Cookmatic Maxi è particolarmente adatta alla preparazione di basi medio-grandi sia dolci che salate, adatte sia alla pasticceria sia alla ristorazione. Ottieni cottura e dettagli sempre perfetti: programma il tuo lavoro con la nuova interfaccia, resa ancora più semplice ed intuitiva. Cookmatic Maxi è facile da pulire ed è adatta alla produzione in continuo per diverse ore.
2 anni di garanzia.

Cookmatic Maxi

Large format, large yield.

Thanks to the oversized plates, you can now make up to 50% more tartlets at the same time with Cookmatic Maxi. Cookmatic Maxi is ideal for the preparation of medium to large sweet and savoury bases suitable for both pastry and catering sector. The new simpler and more intuitive interface lets you program your work, so you get all your details just right and a perfect cook every time. Cookmatic Maxi is easy to clean and suitable for continuous production over several hours.
2 years warranty.

Dosiplus Pro

Tecnologia avanzata per un dosaggio sempre corretto.

Dosiplus Pro è progettata per dosare differenti preparati. L'interfaccia intuitiva e funzionale permette di impostare facilmente la programmazione e scegliere tra le 25 velocità di erogazione, rese possibili da un motore elettrico ancora più potente e silenzioso. La funzione reverse ha 5 parametri di regolazione, con funzione anti-goccia, per ridurre al massimo gli sprechi. Le tramogge accessorie con lobi in gomma consentono una perfetta erogazione di prodotti delicati e contenenti parti solide. Con Dosiplus Pro è possibile dosare, iniettare, spalmare e distribuire impasti fluidi, formaggi cremosi, panna e creme, ma anche paste di nocciola, ripieni di frutta, miele, marmellate, salse, burro di arachidi, conserve, budini, yogurt e molto altro. **2 anni di garanzia**.

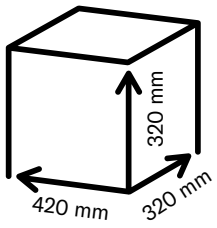

Dosiplus Pro

Advanced technology for a perfect dose every time.

Dosiplus Pro is designed to dose different mixes. The intuitive and functional interface allows you to easily set the programming and choose from 25 dispensing speeds, thanks to an even more powerful and quieter electric motor. The reverse function has 5 adjustment parameters with anti-drip protection to reduce waste as much as possible. The accessory hoppers with rubber lobes allow for perfect dispensing of delicate products containing solid parts. With Dosiplus Pro it is possible to dose, inject, spread and distribute liquid batters, creamy cheeses, cream and custards, as well as hazelnut pastes, fruit fillings, honey, jams, sauces, peanut butter, preserves, puddings, yoghurt and much more. **2 years warranty**.

Cutting machines

Lira automatica

Tagli e porzionamenti perfetti, più in fretta.

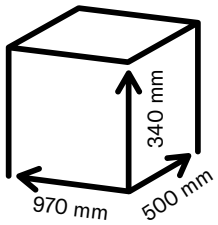

Lira automatica è una taglierina elettrica semiautomatica che realizza tagli veloci e perfetti con notevole risparmio di tempo, evitando scarti di prodotto. È ideale per il taglio di masse dure e congelate (anche contenenti mandorle, nocciole e frutta secca in genere) e perfetta per la produzione al taglio di cremini, nocciolati, torroni morbidi, ganaches e piccola pasticceria. Il piano di taglio ha velocità di avanzamento regolabile con azionamento a pulsanti ed è interamente realizzato in acciaio inox AISI 304, facilmente smontabile per un'immediata pulizia anche in lavastoviglie. La sua capacità di taglio permette il porzionamento di prodotti alti fino a 6 cm e congelati fino a -15 °C. **2 anni di garanzia**.

Automatic Lira

Perfect cuts and portioning, faster.

Automatic Lira is a semi-automatic electric cutter which performs fast and perfect cuts that will save you time and avoid product waste. It is ideal for cutting hard or frozen product (even those containing almonds, hazelnuts and dried fruit in general) and perfect for cutting cremini, hazelnut chocolates, soft nougat, ganaches and small pastries. The cutting base has adjustable feeding speed with push-button operation and is entirely made of AISI 304 stainless steel. The base is easily removable for immediate cleaning and is dishwasher safe. Its cutting capacity allows the portioning of products up to 6 cm high and frozen down to -15 °C. **2 years warranty**.

Lira manuale

Controllo manuale, perfezione meccanica.

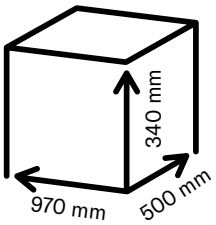

Lira manuale è pensata per il taglio di masse dure, anche contenenti mandorle, nocciole e frutta secca, oltre al porzionamento di cremini, nocciolati, torroni morbidi, ganache, piccola pasticceria (mousse, semifreddi, bavaresi), gelatine, biscotteria, marzapane. L'avanzamento del piano avviene tramite una manovella che consente di regolare la velocità in fase di taglio. La struttura di Lira manuale è in acciaio verniciato, tutte le componenti a contatto con i preparati sono realizzate in acciaio AISI 304 nel rispetto delle norme alimentari vigenti. Il piano è smontabile per una facile pulizia, anche in lavastoviglie. **2 anni di garanzia**.

Manual Lira

Manual control, mechanical perfection.

Manual Lira is designed for cutting hard products, even those containing almonds, hazelnuts and dried fruit, as well as portioning cremini, hazelnut chocolates, soft nougat, ganache, small pastries (mousses, semifreddi, bavaroises), jellies, biscuits and marzipan. The cutting base is advanced manually by means of a hand wheel that allows for manual speed adjustments during the cutting phase. The body of the manual Lira is painted steel. All the components which come into contact with food are made of AISI 304 steel in compliance with the food regulations in force. The base can be disassembled for easy cleaning and is dishwasher safe. **2 years warranty**.

Chitarra singola

Il modo più semplice per tagliare ganache e masse morbide.

Un taglio sempre preciso e dritto, per dare ai tuoi prodotti il migliore aspetto in vetrina. La chitarra ad azionamento singolo è composta da una base di taglio in alluminio anodizzato, telai in materiale di alta qualità e struttura in acciaio inox AISI 304. È facilmente smontabile per una rapida pulizia ed è compatibile con i telai di taglio accessori, quadri per ganache e carrello.

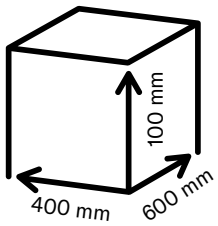

Single Guitar

The easiest way to cut ganaches and soft foods.

Perfectly straight cuts will make the products in your shop window irresistible to passers-by. The single-drive guitar cutter consists of an anodized aluminium cutting base, high quality material frames and an AISI 304 stainless steel body. It is easily removable for quick cleaning and is compatible with additional cutting frames, ganache frames and trolley.

Chitarra doppio taglio

Due passaggi, un unico risultato straordinario.

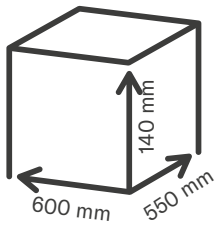

Il modo più efficace di creare porzioni perfette. Il doppio meccanismo permette di tagliare rapidamente il prodotto in un'unica operazione. La base di taglio è in alluminio anodizzato, la struttura in acciaio inox AISI 304 nel rispetto delle norme vigenti e i telai sono pensati per la massima robustezza. È facilmente accessoriabile con differenti telai di taglio, quadri per ganache e il comodo carrello in acciaio. Tutta la struttura è smontabile per agevolare le operazioni di pulizia e manutenzione.

Double Guitar

Two steps, one extraordinary result.

The most effective way to get perfect portions. The double mechanism allows you to quickly cut the product in a single step. The cutting base is in anodized aluminium, the body is AISI 304 stainless steel in compliance with current standards and the frames are designed for maximum durability. You can easily accessorise it with different cutting frames, squares for ganache, as well as a convenient steel trolley. The entire body can be disassembled to make cleaning and maintenance easy.

Tempering and glazing

minitemper
(-)

Minitemper

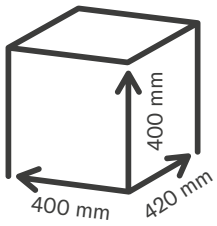

Una mini dal cuore grande.

Minitemper è la temperatrice da banco di piccole dimensioni, semplice da utilizzare e con un ottimo rapporto qualità/prezzo. Minitemper mantiene il cioccolato in tempera per diverse ore, anche grazie ai programmi personalizzabili. Le bacinelle sono intercambiabili, per la massima comodità d'impiego e riduzione dei tempi morti di lavoro. Struttura e bacinella sono realizzate in acciaio inox AISI 304, coperchio trasparente in PET per il mantenimento della temperatura nel totale rispetto delle normative igieniche. **2 anni di garanzia**.

A small machine with a big heart.

Minitemper is a small, simple to use bench tempering machine that represents excellent value-for-money. Minitemper keeps chocolate tempered for several hours thanks to the customisable programs.
The bowls are interchangeable, for maximum ease of use and reduction of downtime. Body and bowl are made of AISI 304 stainless steel, transparent PET lid to maintain the temperature in total compliance with hygiene regulations. **2 years warranty**.

Glass-ice

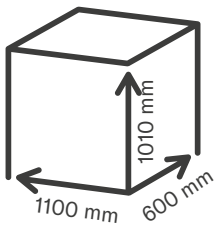

Glassatura perfetta senza sprechi.

Veloce e pratica, Glass-ice permette di glassare in modo uniforme i prodotti, evitando gli sprechi di materia prima e massimizzando l'efficacia in laboratorio, riducendo i tempi di esecuzione. Glass-ice ha un recipiente di grandi dimensioni da riempire con cioccolato, zucchero, fondant e molto altro. È facile da usare: con un semplice gesto della mano permette di glassare 100 paste mignon in 15 secondi. La vaschetta di recupero permette di non sprecare il prodotto utilizzato e l'ampia base di lavoro consente la glassatura di prodotti con le più svariate forme e dimensioni. È possibile glassare con diversi colori senza dover pulire la macchina ad ogni cambio di prodotto e, una volta spruzzato il prodotto, si può intervenire con ulteriori decori senza levare i manufatti dalla glassatrice.

Perfect glazing with no waste.

Fast and practical, Glass-ice uniformly and evenly ices products, avoids wasting raw materials, maximises efficiency, and reduces preparation times. Glass-ice features a large container you can fill with chocolate, sugar, fondant and much more. It is easy to use. With a simple gesture of the hand it can ice 100 mini-pastries in just 15 seconds. The tray underneath recovers the product dispensed, and the wide working base can accommodate the most varied shapes and sizes for icing. You can ice with different colours without having to clean the machine every time the product is changed and, once the product has been sprayed, further decorations can be made without having to remove the products from the machine.

Spray Compact

Dimensioni ultracompatte senza rinunciare alla potenza e all'efficienza. Spray Compact distribuisce la gelatina uniformemente e, con ingombro minimo, è dotata di un compressore e una potente caldaia. Il risultato sono tempi di esecuzione ottimizzati e un risparmio sulla quantità di prodotto spruzzata. Temperatura e pressione sono regolabili mediante le apposite manopole. Utilizzabile con gelatina liquida a temperatura ambiente. Realizzata in acciaio inox. **2 anni di garanzia**.

Ultra-compact dimensions without sacrificing power and efficiency. Spray Compact distributes gelatine evenly and comes equipped with a compressor and a powerful boiler, all in a small package. The result is optimised running times and savings on the amount of product sprayed. Temperature and pressure are all fully adjustable by means of special knobs. Can be used with room temperature liquid glazes. Made of stainless steel. **2 years warranty**.

Spray Gel VPM

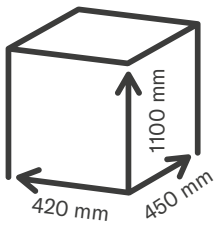

Per produzioni voluminose, Spray Gel VPM è la scelta giusta per efficienza e durata. Il grande vano posteriore permette di alloggiare il contenitore della gelatina all'interno della macchina, mentre la caldaia ermetica permette un rapido riscaldamento, accorciando i tempi di attesa, con conseguente risparmio energetico. Spray Gel VPM è dotata di innesto rapido ad aria compressa posto sul frontalino comandi ed è equipaggiata con un compressore più potente, utilizzabile con varie attrezzature: aerografo, pistola per cioccolato e tutti quegli utensili che necessitano di aria compressa. Scocca in acciaio inox per una pulizia facile e rapida.
2 anni di garanzia.

For high-volume output, Spray Gel VPM is the right choice when it comes to efficiency and durability. The large rear compartment allows for the gelatine container to be housed inside the machine, while a sealed boiler system ensures rapid heating, which reduces waiting times and provides considerable energy savings. Spray Gel VPM features a push-fit compression fitting on the front panel and is equipped with a more powerful compressor that can be used with various equipment, such as an airbrush, chocolate gun and any compressed air tool. Stainless steel body for quick and easy cleaning.
2 years warranty.

Spray Gel Twin C / Spray Gel Twin F

Twin C: erogazione a caldo.
Twin F: erogazione a caldo e a freddo.

Due erogatori per una grande produttività. Il prodotto gelatina è distribuito tramite il tubo rosso, mentre la bagna o altri liquidi tramite il tubo di erogazione azzurro. Spray Gel Twin C è dotata di due circuiti unicamente per erogazione a caldo: si possono così lavorare contemporaneamente prodotti diversi. Spray Gel Twin F eroga a caldo e a freddo: bagna e gelatina, insieme per la massima efficacia ed efficienza possibili. Caldaia ermetica a rapido riscaldamento per maggiore efficienza e minori consumi. L'aspirazione avviene direttamente dai contenitori posti nel vano inferiore e i prodotti vengono inviati agli erogatori direttamente senza il contatto con l'aria, per la massima igiene. La scocca, interamente in acciaio inox, permette una facile e rapida pulizia.
2 anni di garanzia.

Spray Gel Twin C / Spray Gel Twin F

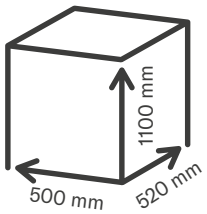

Twin C: hot spraying
Twin F: hot and cold spraying.

Two dispensers deliver high productivity. The gelatine is distributed through the red hose, while the infusions or other liquids are distributed via the gun attached to the blue dispensing hose. Spray Gel Twin C is equipped with two circuits with red suction hoses solely for dispensing geltaine. Spray Gel Twin F sprays at both hot and cold temperatures: infusions and gelatinescome together for the maximum efficacy and efficiency. Sealed boiler with rapid heating for greater efficiency and lower energy consumption. The product is drawn directly from the containers placed in the lower compartment and sent to sprayers without coming into contact with the air, thus guaranteeing maximum hygiene. The entirely stainless steel body allows for quick and easy cleaning. **2 years warranty**.

Ciocospritz

Una macchina pensata per nebulizzare il cioccolato temperato e i surrogati. Ciocospritz consente di regolare l'aria compressa e il prodotto con comandi separati per ottenere sempre un risultato ottimale.
Il vano di apertura superiore rende semplice il caricamento di cioccolato sciolto temperato, che viene mantenuto in tempera da un sistema di riscaldamento.
La temperatura è regolabile sino a 60°C.
2 anni di garanzia.

A machine designed to spray tempered chocolate and substitutes. Ciocospritz allows you to control the compressed air and product separately so you get perfect results every time. The upper opening compartment makes it easy to load tempered melted chocolate, which is then kept tempered by a heating system. The temperature is adjustable up to 60°C.
2 years warranty.

Rollerbiscuit

Biscuit perfetti in altezza, in un quarto del tempo.

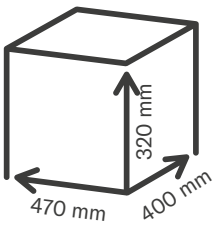

Rollerbiscuit è uno strumento studiato per permettere di stendere tutti i tipi di biscuit e masse di pari densità con velocità e precisione. La stesura del biscuit richiede circa 1/4 del tempo normalmente impiegato con il metodo tradizionale, con un prodotto qualitativamente superiore, di grande compattezza, regolare sia in altezza che in larghezza.
Il funzionamento è totalmente meccanico: Rollerbiscuit dispone di tacche di regolazione per l'altezza del biscuit e di un regolatore centrale per memorizzare il livello selezionato. Si stendono biscuit adatti ad ogni tipo di utilizzo, ma soprattutto per la preparazione di mignon da taglio e di tronchetti. Rollerbiscuit è costruito interamente in acciaio inox, è facilmente smontabile e può essere lavato in lavastoviglie.

Perfectly-sized biscuits in a quarter of the time.

Rollerbiscuit is a tool designed to roll out all types of biscuits and doughs of equal density quickly and accurately. When compared to the traditional method of rolling out biscuit dough, Rollerbiscuit requires only 1/4 of the time normally used, while giving you a qualitatively superior product that is highly compact and uniform in terms of thickness and width. The operation is 100% mechanical: Rollerbiscuit is provided with adjustment notches for the biscuit thickness and a central regulator to save the selected level. It rolls out biscuits of all shapes and sizes, but it is particularly suited to those used in the preparation of mini-pastries and logs. Rollerbiscuit is made entirely of stainless steel, can be easily disassembled and is dishwasher safe.

Cutter

Cutter tritatutto: perfetto per granelle, salse e tanto altro

La gamma di Cutter è composta da solidi tritatutto per la preparazione di granella di nocciole, di mandorle tritate e per la lavorazione di moltissimi prodotti di normale utilizzo in laboratorio. Ottime anche per la preparazione di salse di frutta e verdura, gelatine di frutta e piccoli impasti.

Food processor: perfect for crumbles, sauces, and much more

The Cutter range is a series of grinders used to prepare ground hazelnut and chopped almonds, as well as the processing of many products normally used in the kitchen. The machines are excellent for preparing fruit or vegetable sauces, fruit jellies and small mixtures.
