PRODUCT OVERVIEW

ROBOQBO Qbo70

Universal vacuum cooking & processing system

70 L floor-standing processing system for professional food production, R&D and process development.

Qbo70 menggabungkan pemanasan, vacuum, pressure processing, mixing dan variable-speed processing dalam satu sistem. Bowl 70 L menggunakan stainless steel AISI 316L dengan temperatur hingga 120°C dan kecepatan 30-2,000 rpm.

1 VACUUM + PRESSURE
Complete system for vacuum and pressure processing; maximum vacuum listed at -990 mbar.

2 UP TO 120°C
Fast heating up to 120°C under pressure for a wide range of hot-process applications.

3 30-2,000 RPM
Variable speed through inverter for controlled mixing, chopping, refining and blending.

4 AUTOMATIC WASHING
Automatic internal washing with a 3-cycle programme for routine cleaning.

TECHNICAL SPECIFICATION

Qbo70

ROBOQBO | FLOOR STANDING

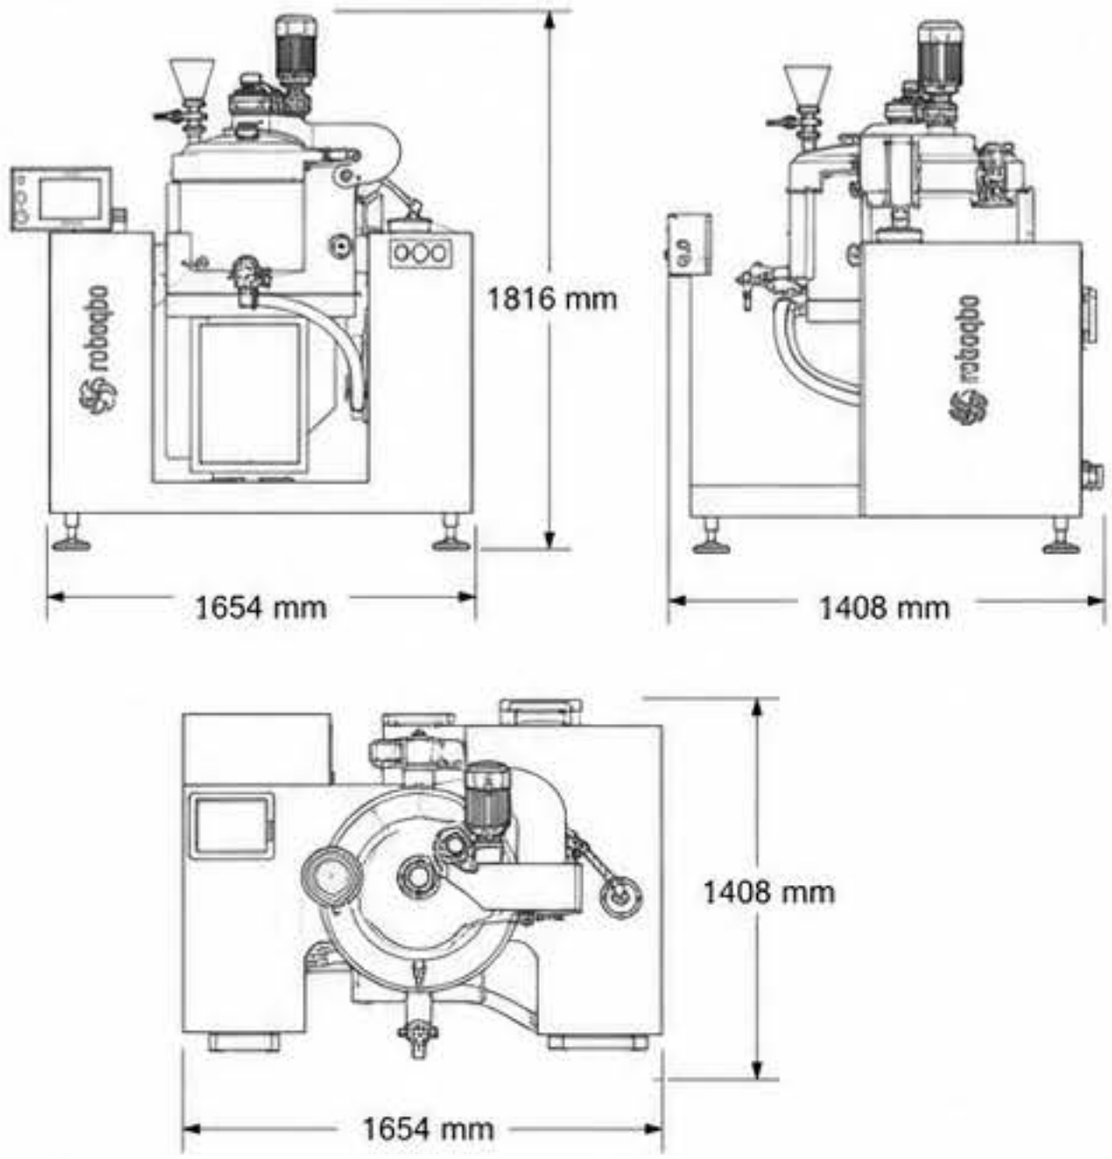

SPESIFIKASI TEKNIS

Model	**Qbo70**
Version	**Floor standing**
Bowl capacity	**70 litres**
Construction	**Stainless steel AISI 316L**
Voltage (three-phase)	**400 / 220 / 200 V**
Frequency	**50 / 60 Hz**
Maximum temperature	**120°C**
Maximum vacuum	**-990 mbar**
Variable speed	**30-2,000 rpm**
Nominal dimensions	**L 1654 x D 1408 x H 1816 mm**
Net weight	**605 kg without generator**
Net weight	**650 kg with generator**

Verification note

The official QBO Food brochure and multiple official ROBOQBO pages support -990 mbar and 1654 × 1408 × 1816 mm. One Italian product page currently shows -980 mbar and 1667 × 1410 × 1816 mm; this conflict is recorded internally and is not silently ignored.

NOMINAL OVERALL DIMENSIONS

SYSTEM HIGHLIGHTS

- Touch screen panel with USB, Wi-Fi and Ethernet input
- Built-in steam generator
- Complete vacuum and pressure processing system
- Automatic fluid and semi-fluid product expulsion
- Automatic internal washing with 3-cycle programme

CATATAN TEKNIS

Overall dimensions shown here are verified nominal dimensions, not an installation/clearance drawing. Final utilities, connection details, clearances, accessories and supplied configuration must be confirmed before installation.
