DRYING TECHNOLOGY

GATEDRYER®

IMPIANTI DI ESSICCAZIONE / *DRYING PLANTS*

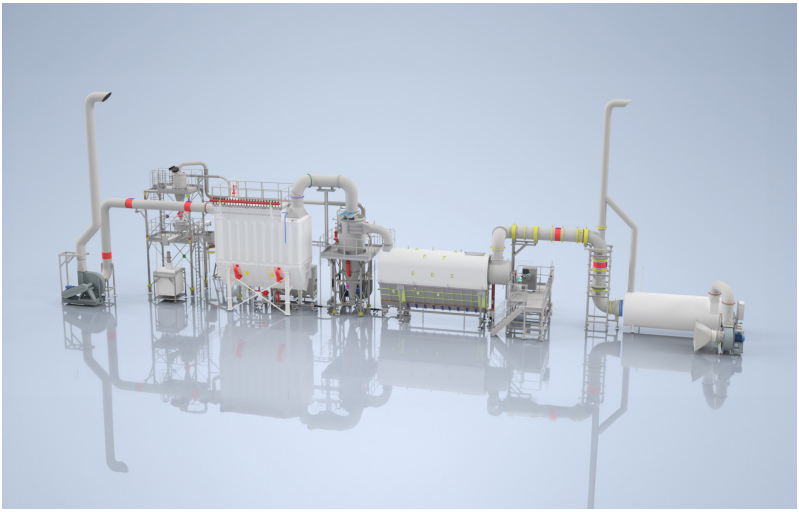

L'**essiccatore Gatedryer®** rappresenta un'importante evoluzione della tradizionale tecnologia di essiccazione "spray". La particolare configurazione orizzontale, a parità di capacità evaporativa, consente al Gatedryer® di essere annoverato tra le macchine più innovative del settore dell'essiccazione per liquidi o pompabili organici e inorganici.

*The **Gatedryer®** represents an important evolution of the traditional spray-drying technology. Its unique horizontal configuration, with the same evaporative capacity, allows the Gatedryer® to be counted among the most innovative machines of the drying sector for liquid or pumpable products organic and inorganic.*
